BO-LF10QC

TABLET LifeStyle 10QC ANDROID™ OS

10,1" CAPACITIVE

PRODUCT DESCRIPTION

10QC Lyfestyle Tablet will surprise you for all the possibilities offered, those that you imagine and many more that you will discover.
With its huge screen 10.1'' you will enjoy movies on a large-scale, images and games with a smooth driving experience and comfortable thanks to its quad processor.
Use it at work, at home with your family, when you travel or your free time.

MAIN FEATURES

IPS SCREEN

Thanks to IPS technology, you will see the screen from all positions, with a viewing angle up to 178 degrees, respecting the color intensity.

QUAD CORE / 2GB RAM

Quad Core and 2GB RAM so that everything goes much faster and fluid.

USB OTG

Allow the tablet to work as a USB host which you can connect from a keyboard to a mouse, memory, card readers, etc.

High Connectivity

In addition to 1 USB port (OTG + Host) for connecting your devices, it has a Micro SD slot so you can expand its memory (up to 32GB), Mini HDMI connection for connecting the tablet to a TV, Bluetooth and high speed Wifi n.

Android Jelly Bean 4.2

Jelly Bean Android system is faster, more stable and the user experience is incredible. Designed for Tablets, significantly enhances multitasking, new keyboard with intelligent text prediction, better interaction with widgets, voice synthesis off-line, enhanced camera, improved wifi management and more.
